

CLIFF CONSULTING, INC.
... your partners for project success

Calling all Project Leaders ...Rise to a New Level of Leadership!

You've been there - large firm, large bureaucracy, and too much travel. That's not us. Cliff Consulting, Inc. is a well-respected, boutique firm of highly experienced Project Leadership Consultants working on local Bay Area assignments with minimal travel requirements. Our environment allows you to concentrate only on what you do best: partner with clients and work with them to achieve project success. If you are a self-directed professional who thrives on the challenges of leading business re-engineering and systems integration projects we want to hear from you. Come enjoy the benefits of a stimulating environment with ample opportunities to implement your insights and ideas in a supportive culture primed for success.

As a Project Leadership Consultant based in the San Francisco Bay Area you will build upon your consulting, process reengineering, and project management experience to partner with your client's organization, taking responsibility for leading the design and implementation of new business processes and/or large systems integration projects. Strong IT project leadership skills are a given; your attitude and approach to partnering with your clients will be the most significant factor in your success. The ability to communicate with individuals at all levels of a client organization from the A/P clerk to the CEO is crucial. Clarity in both written and verbal communication, combined with excellent judgment, a high level of self-awareness, and focused listening skills will help you navigate even the most politically charged environments. Much of your time will be spent paving the back roads of communication between individuals and teams with competing objectives to resolve the issues that often stand in the way of a complex project's successful outcome.

CLIFF CONSULTING, INC.

... your partners for project success

Founded in 1972 as Robert Cliff & Associates, Cliff Consulting is an exceptional management consulting firm. We have successfully completed more than 600 projects and over 95% of the time our clients retain us for additional projects. Our clients include many of the Bay Area's largest companies such as Wells Fargo, The Clorox Company and Kaiser Permanente, as well as non profit organizations in the arenas of philanthropy and education. Our success as a firm rests on our commitment to meeting our clients' needs while maintaining a practice that respects the lifestyles of our associates. Unlike some consulting firms, our goal is not to be viewed as the "expert" with the "answer"; instead we view our mission to be marshalling and leading the appropriate resources to develop the right solution for our clients. And because our focus is on our clients rather than our own growth, we enjoy repeat business from local clients, giving our associates the opportunity to do what they do best without having to travel.

If a Cliff Consulting opportunity sounds appealing to you—and if you have the skills and experience we're looking for—we'd very much like to hear from you. Please email us your resume and cover letter to Careers@CliffConsulting.net.
